The aim of workshop is to discuss the current status quo, challenges which are being experienced by both SACAA and the industry, with a view to reaching a consensus on how these issues will be resolved in the interim, whilst we work in collaboration with industry to amend the existing regulations. It is anticipated that the workshop will continue 28 June 2019, with a smaller working panel comprised of both SACAA personnel and industry members who will be identified during Thursday's discussions.
